

Aidan Andrew Daniel

Passionate about infrastructure and network engineering, I'm pursuing a Bachelor of Computer Science (Networks & Security) at UTM. With Cisco certifications and hands-on experience to network operations such as switching, routing and network configuration. I aim to grow into a cloud/infrastructure engineer role focused on protecting cloud systems and optimizing cloud infrastructure.

Work Experience

Software Tester Intern - AmBank (M) Berhad

Oct 2025 - Feb 2026

- Performed User Acceptance Testing (UAT), regression, sanity, and back-testing for AmBank's digital banking platform (AmOnline)
- Logged, documented, and tracked defects using OpenText ALM
- Verified content accuracy such as translations, localization files, and system configurations across web and mobile platforms
- Collaborated with Business Analysts, Test Managers, Assistant Managers, and external vendors
- Followed detailed testing guidelines, test plans, and compliance standards in a highly regulated banking environment

Projects (Selected)

Blockchain-Powered Investment Tracking System

Apr 2026 - Present | Solidity, Laravel, Vue, MySQL

- Final Year Project
- A decentralized platform for tracking and managing investments
- Secure, transparent transaction logging
- Real-time updates and investors insights
- User-friendly UI, a simple web-based dashboard.

Mua'llim: Quran Class Management System

Oct 2024 - Jan 2025 | Laravel PHP, MySQL, JavaScript, CSS

- Developed a web-based platform to manage Quran learning classes
- Implemented role-based access, class scheduling, attendance-tracking and real-time updates
- Utilized Laravel framework and MySQL database

eBook Review and Recommendation Tracker

Mar 2024 - June 2024 | HTML, PHP, JavaScript, CSS

- Created a web platform for eBooks reviews, rating and recommendation
- Implemented full CRUD operations
- Designed a user-friendly UI

Educational Background

Bachelor in Computer Science (Computer Network and Security) with Honours.

Universiti Teknologi Malaysia (UTM)

Oct 2022 - Present

- Current CGPA : 3.77
- Athletics team of UTM

Skills

Technical Skills

- High Adaptability
- Time Management
- Tasks Management
- Data Analysis
- Languages: Python, Java, C++, C, JavaScript, PHP
- Web Technologies: HTML, CSS, Laravel, MySQL

Tools

- GitHub
- XAMPP
- Packet Tracer
- Microsoft Word Excel, Outlook, Teams

Languages

- English (Fluent)
- Malay (Native)

Certification

- CCNA: Introduction to networks
- CCNA: Switching, Routing, and Wireless Essentials
- CCNA: Enterprise Networking, Security and Automation.

Additional Information

- Student-Athlete
- Bronze medalist for athletic(400m hurdle) of SUKIPT 2024
- Sabah athlete for SUKMA 2024
